

BASIC IDEA CONCEPT *Tournament of 16 teams. These teams can be from any country in the world and from any league in the world*

Narrative: A user can login and input soccer match results and the events that happened during that match into a log to keep track. They can edit previous inputs into the system and can also create summaries of previous games to see.

GENERAL USE CASES:

User logs in

User logs out

HIGHER LEVEL USE CASES:

Admin creates teams/players

Admin updates teams/players

Admin deletes teams/players

User creates match summary

User logs result

User logs match events
